

YORK PLACE

Rehab-to-Home Recoveries
& Long-Term Care

YORK PLACE

For short-term rehabilitation or long-term skilled nursing, our multidisciplinary approach to comprehensive care focuses on medical needs, as well as emotional, spiritual and social needs. Our caring, professional staff utilizes the latest technologies and equipment in a distinctive not-for-profit, faith-based community near the Country Club Plaza.

At York Place, we embrace this unique approach of blending quality care with resident enrichment provided by a compassionate, highly-engaged staff. Our staff-to-resident ratios are significantly higher than both the Missouri and national averages. In fact, we have more than double the Missouri average of licensed nurse staffing hours per resident each day.

OUR QUALITY SERVICES INCLUDE:

- **Short-term care** – Comprehensive rehabilitation or transitional care between hospital and home
- **Long-term care** – A comforting home when extended care is needed
- **Respite care** – Short-term assistance when your regular caregiver is unavailable
- **Hospice care** – Coordination with outside hospice services to provide support in the final phase of a terminal illness

As a testament to our quality care, we are proud that York Place has achieved a five-star quality rating from the Centers for Medicare & Medicaid Services – Medicare’s highest five-star rating. This rating is a reflection of our community’s ongoing commitment to maintaining a superior level of excellence for our long-term residents, as well as those who join us for a short-term rehab stay.

Our affiliation with Saint Luke's Health System helps us coordinate care with many of the area's best physicians, hospitals and specialty health care providers. Our partnership with Select Rehabilitation provides top-notch, on-site post-surgical rehabilitation services, including physical, speech and occupational therapy.
