

# COVID-19: April 2, 2021 BSP Community Information

## **Current York/Coventry Testing/Visiting Status: Routine Testing: Green**

Visitation in York/Coventry continues to occur according to our core principles of COVID-19 infection prevention (masking, screening, social distancing). Remember you're able to visit your loved one in York or Coventry in a designated area with a scheduled visit. To schedule a visit, please contact our concierge at 816-931-4277 between Mon. and Fri. 9 a.m. – 5 p.m.

A reminder that Routine Testing is regular testing of staff only at a frequency dictated by the Jackson County, MO positivity rate. Green = less than 5% positivity rate, Yellow = 5-10% positivity rate, Red = greater than 10% positivity rate. Since we are at a Green positivity rate, BSP staff are being tested once per month.

### *Visitor Reminder*

We are happy to see resident friends and family members visiting! Please remember that those guests visiting independent living residents should go directly to the apartment of the resident they are visiting and not congregate in commons areas of the community.

### *Food Delivery*

You are welcome to drop off any treats or meals for your loved ones. If you plan on doing so, please make sure to use sealed containers for all food products. Please refrain from using plates wrapped with foil or plastic wrap as those tend to spill and get a little messy.

### *Daytime Security*

You may have noticed a new face around the BSP campus. We are pleased to announce that Jeff Garity has joined BSP as the new daytime security guard. Previously the facilities team was responsible for daytime security, so we are excited to have this new position for added resident and staff safety and security. Prior to joining BSP, Jeff was a security guard at Saint Luke's North hospital.

### *Technology Assistance*

We would like to share with all residents and family members that Sami Dunn will be officially starting the job she was hired for one year ago! Sami is going to be the liaison with patients that discharge from Saint Luke's Hospital to become short stay residents in York Place rehab. (She might even try to convince a few to move-in and join the family!) We are grateful for Sami and all of the support and technology expertise she was able to provide to our residents during the pandemic when families were not able to visit. Now that friends and family members are able to visit independent living residents in their apartments, we hope resident technology needs are eased as Sami will not be available for technology assistance moving forward. Resident Council members are working to create a Resident IT committee that will become our experts as we implement the CATIE system, and they may also be available to help with those little tech issues that come up. And don't worry, Sami will still be around BSP, but she'll be out of the building at the hospital and spending more time in York — we didn't want you to think she left us!
